### **DETAILED ACTION**

Receipt is acknowledged of the Amendment filed 9 October 2003 and the Request for Continued Examination filed 20 November 2003.

### ***Allowable Subject Matter***

Claims 1-23 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance: The best prior art of record discloses an electrodeless microwave discharge lamp having a fill containing halides of tin and aluminum or bismuth. However, the prior art of record fails to disclose the fill having a main component of tin and aluminum as claimed in claim 1 and bismuth as claimed in claim 13. Claims 2-12 and 14-23 are allowed by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- US Patent 5,682,080 discloses Al as an additive of the fill, not a main component.
- US Patent 5,834,895 discloses Bi as an additive of the fill.
- US Patent 5,363,015 discloses a fill comprising Pr and Sn.
- US Patent 5,117,312 discloses a fill comprising Hg and Sn.
- US Patent 6,633,111 discloses a fill having a main component of  $\text{SnI}_2$ , but no Al.
